Child Care Demographics 2018

Baltimore City Report

With a thriving port and easy access via rail, air and highways, Baltimore's strategic Mid-Atlantic location in the densely populated and economically vibrant Washington, DC–Boston corridor is a prime asset for its continued economic development. Baltimore also has six key industry sectors which present future growth opportunities – financial and professional services, health and bioscience technology, culture and tourism, information and creative services, logistics, and advanced manufacturing.

Baltimore City accounts for 23 percent of the region's total population and its diverse resident base is stable and growing, slowly reversing decades of population loss. Baltimore City's 13,400 businesses employ 268,000 workers and over 400 of these businesses have 100 or more workers.

More than 60 federal agencies and research labs are within 30 miles. Johns Hopkins Hospital and University is the largest recipient of federal research dollars nationally. The city has two state-of-the-art biotechnology business parks and is home to 13 colleges and universities. The Port of Baltimore, Foreign Trade Zone #74, and Enterprise Zone are significant economic engines for the region.
